NEA/HS/6.6  
Date : 14 October 2016

To: All Traders and Declaring Agents

Dear Sir / Madam,

## **TRADENET DECLARATION FOR 14 JOINT CONTROLLED SUBSTANCES BY NEA AND SCDF**

With effect from 13<sup>th</sup> November 2016, the 14 substances as listed in the ANNEX will be jointly controlled by NEA and SCDF.

### **Import Permit Application:**

2 Prior to import permit application in the TradeNet system, importers are required to obtain the following necessary licences from NEA and SCDF:

- SCDF – Import and Storage Licences
- NEA – Hazardous Substances Licence (for controlled substances S/N 7 – 14 only)

3 For import permit application of controlled substances **above SCDF exemption quantities**, all traders and declaring agents are required to declare both NEA and SCDF product codes. Please refer to **Table 1** for SCDF exemption quantities and the product codes (NEA and SCDF) to be used in the import permit application.

4 For import permit application of controlled substances **below SCDF exemption quantities**, all traders and declaring agents are also required to declare both NEA and SCDF product codes. Please refer to **Table 2** for SCDF exemption quantities and the product codes (NEA and SCDF) to be used in the import permit application.

5 For traders and declaring agents who declare below SCDF exemption quantities, they are required to comply with fire safety requirements for the storage of the controlled substances even though a SCDF storage licence is not required.

### **Export Permit Application:**

6 Prior to the export permit application, exporters are required to obtain a Hazardous Substances Licence from NEA (for controlled substances S/N 7 – 14 only).

7 Please be informed that SCDF does not have licensing requirements for the export of these 14 substances, hence SCDF (import and storage) licences and product codes are not required to be declared in the export permit. Traders and declaring agents are to declare using NEA product codes only. Please refer to **Table 3** for the NEA product codes to be used in the export permit application.
