# COURAGE AND COMPASSION WHEN LIFE MATTERS

## SENIOR OFFICER

Be part of **The Life Saving Force** today.

# VALUING INDIVIDUALS, GROOMING LEADERS

Be the source of courage and control. When you join the SCDF, you join the ranks of an elite team which courageously protects and saves lives and property for a selfless cause. As the vanguard of our frontline, you will be professionally trained to be in control of challenging rescue incidents, and battling fire, chemical, biological and radiological threats with innovative and cutting-edge technology. You will be involved in policy formulation and implementation to keep Singapore a safe and emergency-ready nation. Mentorships, varied job exposure, and opportunities to participate in overseas missions and international learning exchanges will help to nurture your strengths — regardless of your career specialisation — and prime you for real-life challenges.

## CAREER DEVELOPMENT

Your career will commence with the Rota Commander Course (RCC). After the RCC, you will be posted to a fire station as a Rota Commander for about two years. Subsequent postings will expose you to command, staff and specialist functions. These will help uncover your strengths and interests to guide your career path. We believe in grooming our officers as leaders. You can look forward to serving at different leadership levels as you rise through the ranks. Through our Talent Management Scheme, we nurture the aspiring into our next generation of helmsmen, who serve with pride and lead with both vision and passion.

## TRAINING

Your route to becoming a Senior Officer begins at the Civil Defence Academy with the Rota Commander Course (RCC).

The RCC will equip you with rescue and firefighting skills, staff work knowledge, and contingency planning proficiency. At the end of the course, you will take on the challenging role of a Rota Commander in the fire station.

The seven-month RCC training programme will cover:

- ▶ INCIDENT MANAGEMENT
- ▶ FIRE INVESTIGATION
- ▶ URBAN SEARCH AND RESCUE
- ▶ PRE-HOSPITAL CARE
- ▶ FIREFIGHTING
- ▶ FIRE SAFETY
- ▶ HAZARDOUS MATERIALS

### TRAINING BOND

You are required to sign a two-year training bond. Should you terminate your service during the RCC or within the two-year bond period, a liquidated damage based on your individual monthly salary is payable.

## ONE CAREER, MANY OPPORTUNITIES

SPECIALIST FUNCTIONS	STAFF FUNCTIONS
Fire Investigations	Strategic Planning
Fire Safety	Training
Hazardous Materials	Technology
Marine Command	Public Affairs
and more...	

### ENFORCEMENT

Through implementation of fire safety measures and conducting regular enforcement checks, these officers seek to increase the awareness of the importance of fire safety.

### FIRE INVESTIGATION

Applying scientific investigation methods, these officers determine the cause of major fires, especially when arson is suspected.

### MARINE COMMAND

Utilising state-of-the-art marine fire and rescue vessels, this unit has the sole responsibility for firefighting in the world's busiest port, and saving lives at sea.
