Owners/Occupiers

Dear Sirs/Mdm

INSTALLATION OF LPG MANIFOLD SYSTEMS

Owners/occupiers of premises who intend to install LPG manifold systems in their premises must first ensure that they possess a valid Temporary Fire Permit / Fire Safety Certificate (TFP/FSC) for their premises. Thereafter, they can then proceed to submit plans and application for TFP/FSC for the installation of LPG manifold systems in such premises.

2 Please note that occupying premises without a valid TFP/FSC constitutes an offence under the Fire Safety Act and would be subjected to enforcement actions including court prosecution.

3 Do feel free to contact me if you have further clarifications on the matter. Thank you.

Yours faithfully

Maj Ang Oon Chye
for Commissioner
Singapore Civil Defence Force
