Date: 10 November 2020

Our Ref: SCDF/HAZ/LIC/01

To All Petroleum & Flammable Material Licensees

Dear Sir/Mdm

IMPLEMENTATION OF TR 74: 2020 – TECHNICAL REFERENCE FOR STORAGE, LAND TRANSPORTATION AND HANDLING OF LNG

The TR 74:2020 – Technical Reference for Storage, Land Transportation and Handling of LNG, was officially launched by SCIC on 4 September 2020.

2. This new technical reference is intended to facilitate storage, land transportation and handling of LNG for downstream end-users, as well as to support the growth of the local LNG industry. It also covers the standardisation of equipment specifications and installation guidelines for storage tanks, transport tankers, and associated facilities; as well as ensuring personnel handling / operating the equipment are suitably trained and competent.

3. As briefed at the launch of TR 74:2020, this new technical reference will be adopted as a compliance code of practice for the application of petroleum & flammable materials licences and fire safety plans approval which takes effect on 1 May 2021. The grace period is to give the industry sufficient lead time to plan ahead for any new storage, transportation and its related equipment. Notwithstanding the above, SCDF has no objection to the adoption of the new technical reference before the effective date.

4. Please convey the contents of this circular to relevant members of your Company/Institution/Association/ Board. The circular is also available in SCDF website: <http://www.scdf.gov.sg>.
